

Openings for Ph.D. students

There are openings for Ph.D. students interested in working with Dr. Georgios Veronis (<http://www.ece.lsu.edu/gveronis/>) starting in Fall of 2008. Applicants with strong background in electromagnetics, optics, and photonics are especially encouraged to apply. Experience with theoretical and/or computational modeling of electromagnetic and/or photonic devices will be considered a plus. Applicants should have an undergraduate degree in electrical/electronic engineering, physics, applied physics or equivalent. Applicants with a Masters degree are preferred.

Interested students should send an email to Dr. Georgios Veronis (gveronis@lsu.edu) describing their background and interests. Please attach a copy of your CV.
