

# HPCA 2012 Student Travel Grant Application

IEEE TCCA is providing funds for travel grants for *IEEE student members* to attend HPCA 2012. Funds can be applied to transportation and lodging expenses incurred between February 24 and March 1, 2012. Meals and conference or workshop registration will not be covered.

Award amounts are yet to be determined and will depend on the number of applicants and available funds. Priority will be given to authors and presenters, but regular student attendees are encouraged to apply. Notification of awards may not occur until after the conference. You should expect only a portion of costs to be covered. *Receipts for eligible expenses will be required.* Contact David Christie (david.christie@amd.com) with any questions.

Fill out this form and send a scanned pdf to [david.christie@amd.com](mailto:david.christie@amd.com) with a subject line of "HPCA-18 student travel grant application". Also have your advisor send an email to the same address confirming your role in HPCA 2012, and if you are *not* a presenter, including a short paragraph supporting your attendance.

**The deadline for applications is February 17, 2012.**
