

⊗ Do not hand in paper copies. Instead, E-mail your solution to koppel@ece.lsu.edu. The preferred format is a PDF file.

Problem 1: Solve 2020 final exam Problem 2 a and b, in which the execution of code on a MIPS FP implementation is to be shown. Note that the FP adder in this implementation is different than the FP MIPS pipeline used in the classroom examples.

Problem 2: Solve 2020 final exam Problem 2d and 2e, in which the execution of code on a MIPS superscalar implementation is to be shown.
