
Electrical & Computer Engineering
SEMINARS
Louisiana State University

SEP **High-Speed Magnetically Levitated Trains**

8
10:00
Ernest Mendrela
Department of Electrical and Computer Engineering, Louisiana State University
Tuesday, 8 September 2009, 10:00 - 11:00, 117 Electrical Engineering Building

SEP **Logical Foundation of Reasoning and Inference**

16
15:00
X. Rong Li
Department of Electrical Engineering, University of New Orleans
Wednesday, 16 September 2009, 15:00 - 16:00, 117 Electrical Engineering Building

OCT **The Local View in Networks**

7
10:00
Ashu Sabharwal
Rice University
Wednesday, 7 October 2009, 10:00 - 11:00, 117 Electrical Engineering Building

OCT **Wireless Network-on-Chip: A New Communication Paradigm for Gigascale Heterogeneous MCMs**

14
14:00
Danella Zhao
Center for Advanced Computer Studies
Wednesday, 14 October 2009, 14:00 - 15:00, 117 Electrical Engineering Building

OCT **Constructions of Strict Lyapunov Functions: An Overview**

27
10:00
Michael Malisoff
LSU Department of Mathematics
Tuesday, 27 October 2009, 10:00 - 11:00, 117 Electrical Engineering Building

MAY **New Lyapunov Function Methods for Adaptive and Time-Delayed Systems**

4
15:00
Michael Malisoff
LSU Department of Mathematics
Tuesday, 4 May 2010, 15:00 - 16:00, 117 Electrical Engineering Building

Schedule prepared 28 April 2010. For the latest schedule (which includes past talks), abstracts, and PDF announcements suitable for posting visit <http://www.ece.lsu.edu/seminar>.
