SEMINAR

Louisiana State University

The Effects of Industry Changes on Engineering Activities within Electric Utility Companies

David Breaux

Cajun Electric Company

Abstract—The Cajun Electric Company and many other electric utility companies are making changes in their operations to prepare for industry deregulation, to utilize new technologies, and to become more efficient and competitive. Mr. David Breaux will address these subjects from his perspective as an engineer at the Cajun Electric Company.

When: Tuesday, 19 October 1999, 19:30 - 20:00

Place: 145 EE Building
