EE 7000

The Course Project

- Project Presentations (TBD, sometime around Dec. 5, 30 min/project)
 - Present 1) project algorithm, and demo 2) your implementation results
 - Submit 1) your slides, 2) a project summary, 3) your codes
- What you need to do this week:
 - Pick a topic/paper from the list (see the following pages), [email your team members and project topic to the instructor](#)
 - Team up if you need to (good to have 2 (at most 3) people per project)
 - Start to read the paper and implement it
